<u>Results Calculation</u>	
The object will be to beat your fastest time you have recorded at the first two 200m regattas of the current DBWA season, not necessarily beat the other boat in your same race.	
Your team may be interested in entering an event and not have any race results for 2016-17. Please enter and we will nominate a time for you.	
How it works -	

Example 1 -

Team A	10s	Target Time	1:05:55	Actual	1:04:45	
Improvement		0:01:10		Placing	2nd	
Team B	10s	Target Time	1:11:11	Actual	1:07:34	
Improvement		0:03:37		Placing	1st	
Team C	20s	Target Time	0:66:66	Actual	0:66:84	No
improvement		-0:00:18		Placing	3rd	

Team A is the winner because they have beaten their target time by the most.

Example 2 -

Open

Team D	20s	Target Time	0:53:30	Actual	0:55:05	No
Improvement		-0:01:35		Placing	3rd	
Team E	10s	Target Time	0:66:10	Actual	0:66:90	No
Improvement		-0:00:80		Placing	2nd	
Team F	20s	Target Time	0:56:24	Actual	0:56:34	No
improvement		-0:00:10		Placing	1st	

In this example none of the teams beat their target time so the winner is Team F who finished closest to their target time.

Overall Winners

The team with the best result will be declared the winner, the second best result declared second and the third best result declared third.
